Condor Gold Raises £6.6 Million Via a Private Placement of New Ordinary Shares

Condor Gold (AIM: CNR; TSX: COG) is pleased to announce a placing of 18,082,192 Units (as defined below) at a price of 36.5p per Unit (the "**Placing Price**"), including a Directors & CFO subscription of 2,361,917 Units ("**Directors & CFO Subscription**"), to raise in aggregate gross proceeds of £6,600,000 (the "**Placing**") before expenses. The Placing has been undertaken by the Company with institutional and other investors and was over subscribed. Completion of the Placing is conditional, inter alia, upon admission of the Placing Shares to trading on AIM. The Company has received conditional approval from the Toronto Stock Exchange (the "**TSX**") for the Placing. The Placing Price represents a discount of 17.6% to the volume-weighted-average price over the 20 trading days prior to 28 May 2020.

Each Unit comprises one ordinary share of 20p each in the Company (a "**Placing Share**") and one half of one share purchase warrant of the Company (a "**Warrant**"). Each Warrant, which is unlisted and fully transferable, will entitle the holder thereof to purchase one ordinary share at a price of 40p (which is an approximate 10% premium to the Placing Price) for a period of 36 months from the date on which the shares are issued pursuant to the Placing. 50% of the Warrants shall be subject to an accelerated exercise period if the closing mid-market price of the ordinary shares on AIM is more than 55p for 10 consecutive trading days. All of the securities comprising the Units are subject to resale restrictions into Canada which will expire four months and one day from the date of Admission of the Placing Shares to AIM.

Mark Child, Chairman and Chief Executive Officer of Condor, commented:

"Condor Gold has conducted a private placement, issuing new ordinary shares representing 19% of the Company's existing issued share capital, to raise gross proceeds of £6,600,000. The placement proceeds will be used to advance the La India Project towards production. Condor has a high grade 1.12 million oz gold open pit Mineral Resource, including Mineral Reserves permitted for extraction from 3 open pits. A processing plant and associated mine site infrastructure is also permitted. The placement proceeds will be used to complete engineering and other technical studies, purchase land in and around the minesite infrastructure and place a deposit on a processing plant. Condor's intention is to permit the 1.2 million oz gold underground Mineral Resource following the commencement of open pit production and continue with exploration activity to demonstrate a 5 million oz Gold District at La India Project."

The Company is exempt from the requirements to obtain a formal valuation and minority shareholder approval in connection with the Directors' Subscription in reliance on sections 5.5(a) and 5.7(a), respectively, of MI 61-101, as neither the fair market value of the securities received by such parties nor the proceeds for such securities received by the Company exceeds 25% of the Company's market capitalisation as calculated in accordance with MI 61-101. The board of directors of the Company has approved the Placing, with Jim Mellon abstaining from voting.

A material change report with respect to the Placing is expected to be filed less than 21 days prior to the closing of the Placing. This time period is reasonable and necessary in the circumstances as the Company wishes to complete the transaction on an expedited basis for sound business reasons.
