Condor Gold plc
(“Condor”, “Condor Gold” or the “Company”)

RETIREMENT OF NON EXECUTIVE DIRECTOR

Condor Gold (AIM: CNR; OTCQX: CNFGF; TSX: COG) announces that Mr Peter Flindell has retired as a Non Executive Director of Condor Gold and will leave the Board with immediate effect. The Board thanks Mr Flindell for his substantial contribution during the last four years.

Mark Child, Chairman and CEO, commented:

“On behalf of the Board, I would like to thank Peter for his substantial contribution to Condor Gold during the last four years. As a senior geologist on the Board, his strategic advice and input into the geological model for the La India Project has been valuable. Additionally, his successful planning of the geochemistry soil survey of 313 sq km, which demonstrates a major Gold District at La India Project, and his contribution to recent drilling programmes have significantly contributed to the continued development of the Project. In this respect, Condor retains a highly experienced senior management team led by Chief Technical Officer and Mining Engineer, Dave Crawford, Senior Geological Consultant, Dr Warren Pratt and local General Manager and Mining Engineer, Aiser Sarria. At a personal level, I thank Peter for his mentorship during his period with the Company.”

About Condor Gold plc:

Condor Gold plc was admitted to AIM on 31 May 2006. The Company is a gold exploration and development company with a focus on Central America.

Condor published a Pre-Feasibility Study (“PFS”) on its wholly owned La India Project in Nicaragua in December 2014, as summarized in the Technical Report (as defined below). The PFS details an open pit gold mineral reserve in the Probable category of 6.9 million metric tonnes (“Mt”) at 3.0 grams per tonne (“g/t”) gold for 675,000 oz gold, producing 80,000 oz gold per annum for seven years. La India Project contains a mineral resource in the Indicated category of 9.6 Mt at 3.5 g/t for 1.08 million oz gold and a total mineral resource in the Inferred category of 8.5 Mt at 4.5 g/t for 1.23 million oz gold. The Indicated mineral resource is inclusive of the mineral reserve.
